At the same time, the Company's shares have been included in the Open Market/Quotation Board of the Frankfurt Stock Exchange and starting tomorrow in XETRA's continuous trading service.

Today, less than one year after the initial listing on the open market of the Düsseldorf Stock Exchange on November 19, 2019 and following two successful capital increases, the Company's shares were included in the quality segment of the Düsseldorf Stock Exchange's open market, the primary market (Primärmarkt), and started trading on the Quotation Board of the Frankfurt Stock Exchange as well as continuous trading starting tomorrow on XETRA. With the uplisting to the primary market and continuous XETRA trading, the Company aims at additional visibility to investors, improved tradability of the Pacifico share and easier access for additional institutional investors. Dr. Martin Siddiqui, Co-CEO, explains the Company's further plans: "Our key priority is to continuously develop the Pacifico share in line with the growth of our company in order to facilitate the financing of future growth. In the longer term, we will strive for admission to the regulated market in parallel with the continuous expansion of our portfolio."

"With the expansion of our operating portfolio by currently 35% compared to the initial listing on the open market and the inclusion of our share into continuous XETRA trading, we have already achieved two previously announced important milestones in 2020", Christoph Strasser, Co-CEO, proudly states and adds: "We will now focus on implementing our second growth phase with a possible market entry in Poland, which we are currently examining intensively."

With the admission to the primary market, the Company is now supported by MainFirst Bank AG not only as capital market partner but also as designated sponsor.
